

A Simple Critical Thinking Checklist.

- 1.** Does the **logic** of the argument make sense?
- 2.** Is it clear how you could **falsify** the argument?
- 3.** What **evidence** for the argument has been cited?
- 4.** Is that evidence **sufficient**, **accurate**, and **relevant**?
- 5.** Has the argument been framed in a way to **persuade** you with emotion rather than **convince** you with evidence?
- 6.** What's **missing**?
